MIX 'N' MATCH

Directions: Match the occupations in the right hand column to their descriptions below. Write the number of the occupation next to the corresponding description.

- ___ Creates technical drawings
- ___ Raises and harvests fish
- ___ Leads individuals and groups in various exercise activities
- ___ Works with plants, people, and the environment
- ___ Solves problems related to computer technology to meet organizational needs
- ___ Creates the structure and mind-manipulating patterns (site maps) of mobile device deliveries
- ___ Conducts natural deliveries
- ___ Effectively extracts data and presents that data in an understandable fashion—responsible for understanding every facet of the organization's database system
- ___ Coordinates conventions, tradeshow, or fundraisers
- ___ Business professional who deals with the financial impact of risk and uncertainty
- ___ Computer scientist who works as a security specialist, forensic investigator, or network defense architect
- ___ Relieves stress and balances body functions
- ___ Organizes and evaluates healthcare records
- ___ Master of cultural or natural history

- ___ Advises companies that are greatly concerned with increasing energy efficiency, and those (with a conscience) striving to reduce their carbon footprint
- ___ Supplies steam to heat and cool buildings
- ___ Designs and develops new computer software systems by incorporating new technologies in a growing range of applications
- ___ Builds bridges and water systems
- ___ Medical professional who has completed specific advanced nursing education (master's or doctoral degree)
- ___ Makes metal castings
